

PROVIDER BULLETIN #13-2017

TO: Participating hospitals that provide covered services to AmeriHealth New Jersey members

FROM: Michael S. Zollenberg
Vice President, Provider Network Operations

DATE: August 16, 2017

SUBJECT: Inpatient hospital readmission retrospective claim audits

As previously communicated, AmeriHealth HMO, Inc. and AmeriHealth Insurance Company of New Jersey (collectively, AmeriHealth New Jersey) expanded its Claim Payment Policy #00.01.47c: Inpatient Hospital Readmission to include a 6 – 30 day provision, which went into effect **January 15, 2017**.

To access this policy, visit our Medical Policy Portal at www.amerihealth.com/medpolicy. Select *Accept and Go to Medical Policy Online*, then select the *Commercial* tab from the top of the page and type the policy name or number in the Search field.

Audit details

Later this month, we will begin outreach to identified facilities to request medical charts for a retrospective claim audit review per the above-mentioned policy.

If the medical chart review indicates that the readmission to the same inpatient acute care hospital or an inpatient acute care hospital within the same health system was (1) related to the original inpatient hospital stay and (2) determined to be preventable or avoidable, the claim representing the readmission will be retracted post-payment. For purpose of claim payments on multiple readmissions meeting these criteria, when each inpatient hospital stay is paid per case or per admission, the claim for the initial inpatient acute-care hospital stay will remain in place and the claims for the other related readmissions will be retracted. Hospitals will be notified prior to any retrospective claim retraction and be afforded a two-level dispute resolution process.
