

PROVIDER BULLETIN
#11-2017

TO: Participating hospitals

FROM: Daniel Brown
Director, Provider Reimbursement

DATE: August 2, 2017

SUBJECT: Revenue code 0750 update

We are sending this bulletin to inform you of updates to the reporting requirements for revenue code 0750.

Effective September 1, 2017, revenue code 0750 will be used to identify surgical services and will be reimbursed consistent with other surgical revenue codes. Hospitals contracted under the Hospital Outpatient Fee Schedule receive global reimbursement for surgical services. The reimbursement rate to hospitals represents an all-inclusive payment for all facility-covered services provided during, and related to, the surgical procedure.

These hospitals should only report procedures that are identified as surgical services and listed on the Surgical Procedure Code List with one of the following revenue codes used to identify surgical services:

- 0360
- 0361
- 0362
- 0367
- 0369
- 0481
- 0490
- 0499
- 0519
- 0750
- 0769
- 0790

Consequently, services identified as Gastroenterology on the Hospital Outpatient Fee Schedule should no longer be reported with revenue code 0750. If gastroenterology services are reported with 0750, those claims will be denied for incorrect billing. Instead, hospitals should report these services using other applicable revenue codes, such as 0920 or 0929.
